

ESCHER GROUP™

Shorter queues. Better service.

That's what your customers demand.

'Riposte® addresses these demands.'

That's what our customers say.

The *Riposte*® product family is built on Escher Group's transaction-management messaging platform. It is licensed on more than 150,000 desktops worldwide and processes millions of transactions every day.

Escher Group's products offer unmatched flexibility, security and ease of use for limitless applications. These solutions not only automate and simplify standard transactions, they also open the door to new possibilities for post offices and other businesses.

And we are more than just postal technology. Our transaction processing platform can be used anywhere, anytime for all types of businesses.

Riposte is the industry standard for easy, secure, reliable and affordable postal counter automation technology, and can be customized to meet your unique needs in countless ways.

***Software that works for you,
not the other way around.***

Riposte[®] knows no boundaries across platforms, transaction types, users and locations.

Mastering the Opportunities

Riposte[®] is the most widely-used counter automation solution in the postal services industry, with a proven record of success throughout a very diverse set of organizations. Escher's solution provides an ideal platform for multi-channel application deployment across distributed networks. With a stable, open and secure architecture, ***Riposte***[®] can easily and cost-effectively keep up with today's evolving post office.

Proven Solutions. Proven Results

Reliability

Riposte has never lost a transaction, had a single point of failure, or had a denial of service.

Security

Riposte security is based on a defense-in-depth architecture and is implemented on every level.

Efficiency

Riposte reduces costs by managing workflow, administration and standardizing the exchange of information to ease integration.

Simplicity

Riposte intuitive, graphical interface offers consistency across applications used at the counter, on the Web, at kiosks and even on mobile devices.

Adaptability

Organizations can easily configure, modify and add transactions to the *Riposte* products set.

Escher is constantly working to improve and enhance our product set.

More Post Offices worldwide rely on the **Riposte**[®] family of products than any other counter automation software.

Postal organizations have chosen *Riposte* as the basis of their retail strategy across multiple channels. Escher technology not only brings efficiency to their postal business but allows them to expand their services, increase revenue and attract and hold their customer base.

Working together towards a common goal

We practice a progressive and highly participative approach to projects. Our primary objective is for your project to be successful, and to help you understand how to continue the process of growing and evolving your business solutions. We understand your business - and the commercial drivers affecting your market - and we work with your staff to ensure that the solutions delivered are both desirable and practical.

The focus of our work is to implement solutions that deliver business benefits quickly and effectively - so that you make the most of your technology investment in the least amount of time.

ESCHER GROUP™

Leverage experience to yield the greatest return.

With Escher Group, you are getting much more than award-winning software. You are getting a team of professionals who are committed to your success from project launch to system rollout – and well beyond.

Exceptional
people working
for you.

Escher hires and keeps some of the brightest and most experienced people in the industry. With headquarters in Boston and offices in Europe and Asia-Pacific, Escher Group is uniquely positioned to draw upon innovative people, ideas and resources.

Escher Group employees possess a wealth of real-world knowledge and experience unparalleled in the industry. We are a unified team with a global, forward-thinking mentality; a team that knows technology must enhance - not complicate - job performance.

Support. Consulting. Training

Escher Group provides professional technology services for a diverse array of industries, offering robust and efficient solutions to keep your business competitive.

Services include project planning and organization, system design and implementation, staff training and operational support.

Our consultants have extensive knowledge of many industries and our expertise lies in the development of strategic, technical architectures and customized solutions, for large-scale enterprise projects.

When your business chooses Escher Group, you get the services of these talented people, who are with you from the project's beginning to system rollout, and beyond.
